

Operation Heaven on Earth A Bottom Up Reset

Heaven's Guidestone

We cannot keep chasing evil and falling behind. We need to lead the way with a greater reset of human liberty, and it should be closer to God's plan and not Satan's plan. What better starting place than to challenge the Georgia Guidestones with Heaven's Guidestone? It is time to erect in the United States, preferably not Georgia, a monument with Heaven's message and we call it Heaven's Guidestone. We could call it the American Guidestone, but since the Georgia Guidestones forecast hell on earth, we need to forecast heaven on earth.

A proposed counter message is given below on the left. The message of the monument is to inspire the coming of heaven on earth in America. God calls it Zion, others call it the New Jerusalem, Daniel called it ever lasting righteousness, and Washington called it a city on a hill. We call it Heaven on Earth. Compare our message on the left with the nightmare on the right. It is time we directly challenge the globalist message. I think Alex could wrap his head around this.

Heaven's Guidestone

1. Let humanity multiply and replenish the earth. The earth is full of resources with enough to spare.
2. Wrong no man, corrupt no women, defraud no child—this is true diversity.
3. Conserve the voice, vote and value of every person, the living language of liberty.
4. Teach faith in action as a working model to live by.
5. Sovereignty is the conservation of local responsibility.
6. Replace judges with peers and replace precedence with law.
7. Decentralize control of everything and everywhere.
8. Liberty is the hand that adds value without coercion.
9. Prize free agency and relinquish all idolatry for authority.
10. Every knee will bow, and every tongue will confess, that Jesus is the Christ—Jesus is the Christ.

Georgia Guidestones

1. Maintain humanity under 500,000,000 in perpetual balance with nature.
2. Guide reproduction wisely — improving fitness and diversity.
3. Unite humanity with a living new language.
4. Rule passion — faith — tradition — and all things with tempered reason.
5. Protect people and nations with fair laws and just courts.
6. Let all nations rule internally, resolving external disputes in a world court.
7. Avoid petty laws and useless officials.
8. Balance personal rights with social duties.
9. Prize truth — beauty — love — seeking harmony with the infinite.
10. Be not a cancer on the earth — Leave room for nature — Leave room for nature.

Key Points of Heaven's Guidestone

- It should look to heaven, possibly two stone hands in prayer and resting on an altar.
- The alter should be large enough so others can kneel in prayer. It is not larger than life to draw attention to itself. The monument should be at eye level, not a massive structure but more like a prayer sent to the sky.
- It should inspire an American renaissance with a focus on God and his command to love one another.
- It should be a place for Americans to leave their written prayers and their hope for the future.
- It will be managed and funded by members involved in phase three of the Bottom Up Reset.
- It should inspire a national dialogue for good that is separate from the narrative for evil.
- Lastly, it should inspire the erection of similar monuments around the country.
- We suggest getting all independent and alternative media behind something like this.
- The author of this idea is Citizen No.
- We are looking for funding to help purchase land and erect the first Guidestone. We have purchased the domain heavensguidestone.com to eventually use this site as a resource to gather interest.
